Prasanna Ravendran
Human Resource Manager

I have been part of the Biocare Family for over 8 years and had the opportunity to play diverse roles across the Human Resources Function. I have been very pleased with the opportunities for advancement and development, and these opportunities have helped me define my career path. The kind of exposure I have received has been phenomenal and has helped me mould myself into a well-rounded professional. It's truly the best company I've had the opportunity to be a part of, and I look forward to many years at BioCare. I have made several referrals and will continue to share with people I know that BioCare should be on top of their list when considering career options.
